Landing Obligation - Part 6 (Fisheries targeting demersal species in the Mediterranean Sea) (STECF-15-19)

WG1-MAP and demersal LO 27 March 2017

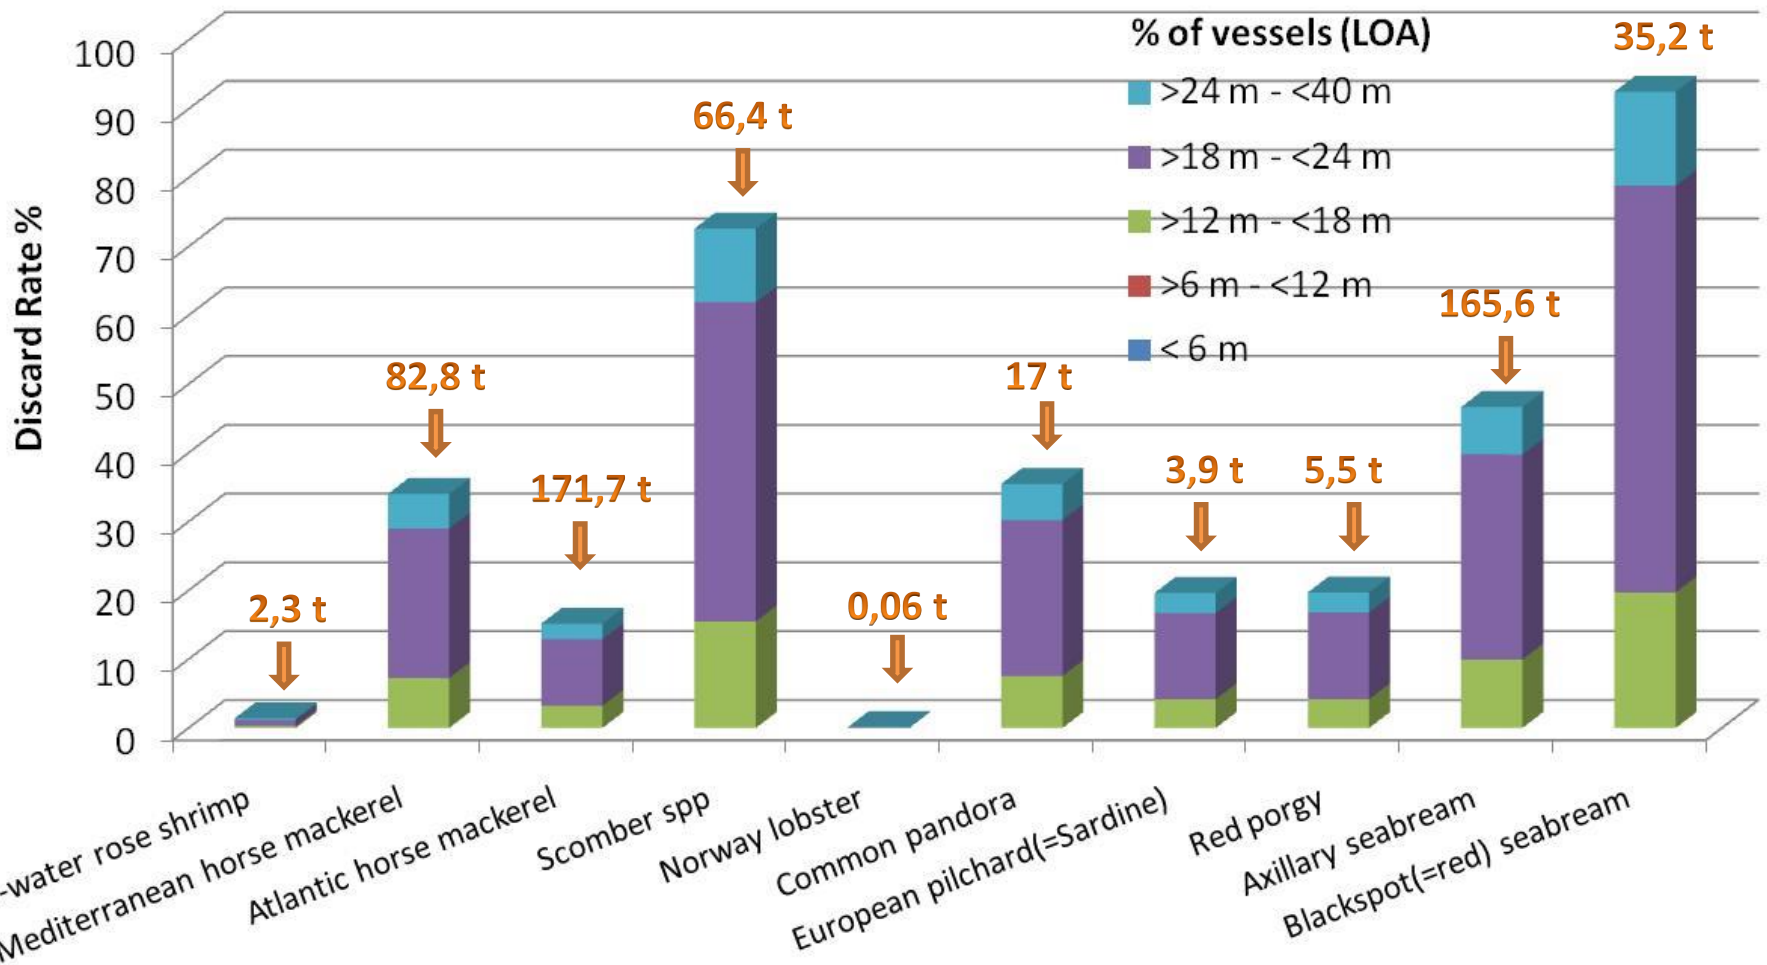

- The DCF data processing provided the average of landings and discards in 2012-2014 period of the species listed in the Annex III (Reg. EU 1967/2006). 789 combinations between fisheries and species resulted.
- When no discard quantities have been declared the fishery and species have been excluded (507 combinations between species and fishery)
- The species and fisheries already included in the discard plan for certain small pelagic fisheries in the Mediterranean Sea (Commission Delegated Regulation (EU) No 1392/2014) and in the landing obligation JR on discards management plans for species defining the fisheries haven't been included (193 combinations)
